

## Hard-Wired Switch

The new HMB™ momentary contact switch from EDT is a hardwired multi-button switching solution that combines quality construction with elegance and affordability.

The construction of the HMB switch includes a rugged plastic enclosure with six momentary contact closures and six status indicator LED's. The buttons are designed to provide a firm tactile feedback to the user and the low current consumption of the LED's (~2 mA/LED) minimizes power supply requirements. The two RJ-45 connectors located on the rear of the HMB allow for quick, reliable cable connections and ease of installation.

The HMB Switch blends quality construction with an elegant and contemporary look to yield an aesthetic flush mounted multi-switch solution. The LED's provide a diffused green status indication that is adequate, yet does not overpower or distract attention from the surrounding room. The HMB Switch is available in White, Almond and Ivory color selections and individual button labels are available upon request.

The HMB Switch was also designed with affordability in mind. The simplicity of the design allowed high quality components to be used in the construction with the resulting end product at a fraction of the cost of some competing multi-button solutions. We believe the HMB Switch provides an innovative and affordable solution where a multi-button switch is required.

### Applications:

- Remote event triggering such as;
  - Drapery Control
  - Pool Control
  - Security Event Trigger
  - Lighting Scene Control

### Features and Benefits:

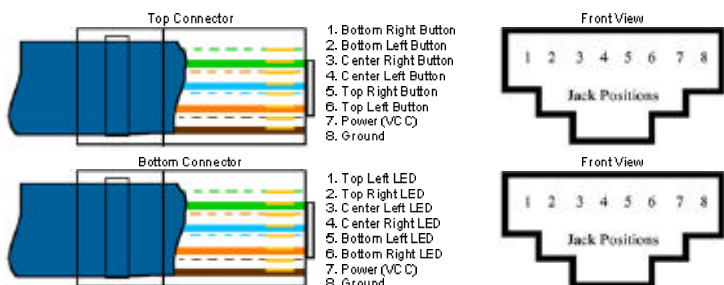

- Stylish design offered in 3 color selections\*.
- Replace multiple single switches with the compact HMB design.

### Options:

- Available in ivory, white, and almond.
- Custom printing or engraving of face plate.
- Additional faceplates.

\*Each HMB switch is shipped with a blank faceplate of matching color.

### Connector Wiring Diagram

### Specifications:

Hard-Wired Switch	
Model Number:	HMB
Power Consumption:	156 mW max/13mA max
Input Voltage:	6-12 VDC
Operating Temperature:	-20° to 60° C
Storage Temperature:	-40° to 80° C
Humidity:	0 to 95% RH non-condensing

### HMB Ordering Information:

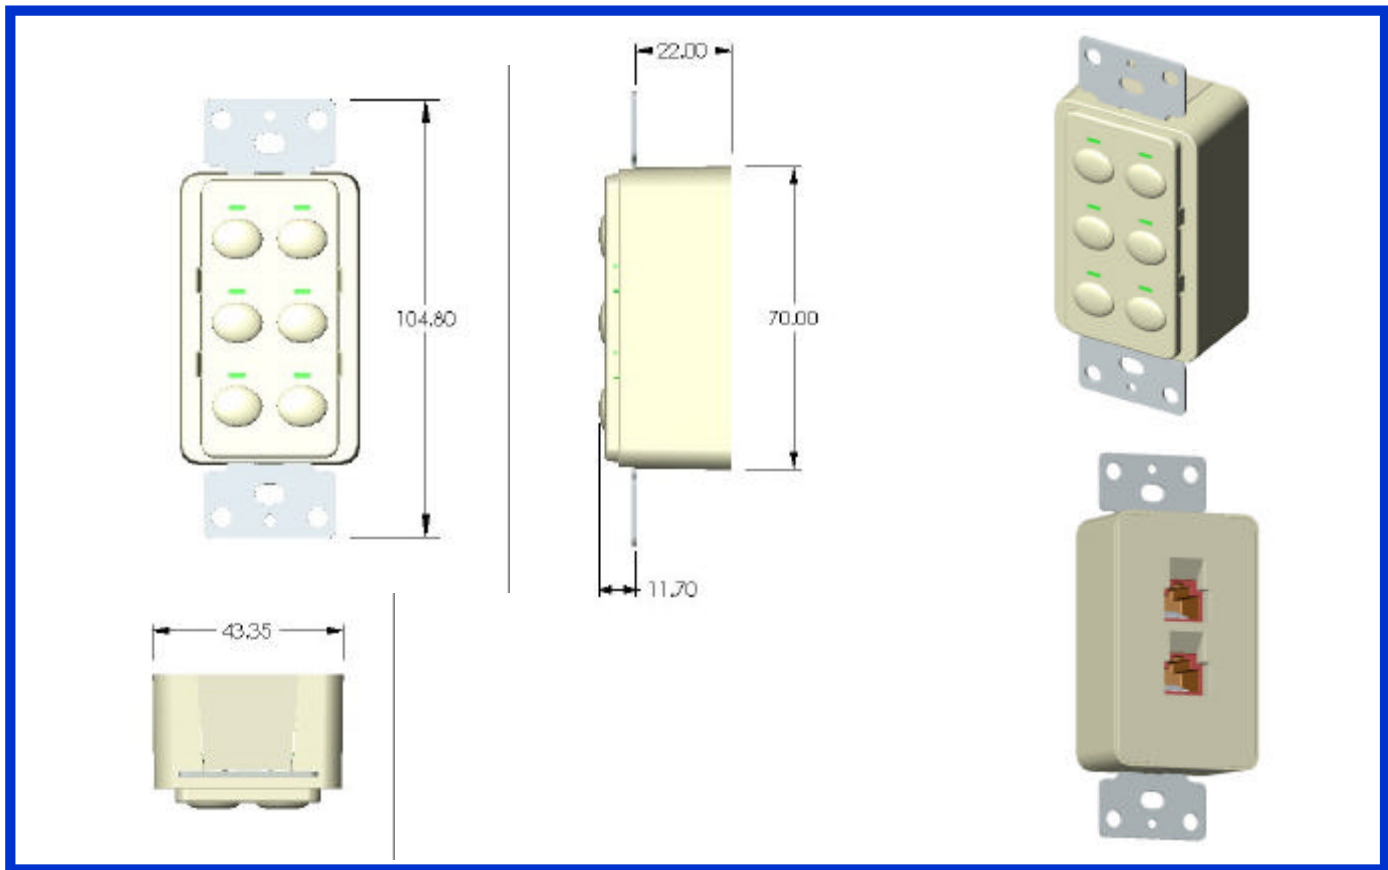

Model Number	Product Description
HMB	Flush mounted multi-button wall switch (HMB Switch)

Ordering Color Codes: (W)-White, (I)-Ivory, (A)-Almond

### HMB Accessory Ordering Information:

Part Number	Product Description
CP-W	White printable cover plate.
CP-I	Ivory printable cover plate.
CP-A	Almond printable cover plate.
